

ST-IED-PRO

SETCAN® PRO IED KIT ILLUSTRATED INVENTORY PAGE 1 OF 4

QTY
2

STANDARD CASE

- Standard storage case
- Durable latches and comfortable overmolded handle
- Dense ULB charcoal ester foam inserts

QTY
1

TRIPWIRE INITIATED PIPE BOMB

- A single Trip Wire Pipe Bomb simulator
- Internal Detonation
- Uses Rubber Burst Discs
- Uses FX Powder (Cool Smoke)
- Machined aluminum
- Mil spec anodized matte finish

QTY
2

TWO CELL CADDY

- Steel powder coated caddy
- 12 Magnetic Feet

QTY
2

SHORT PIPE BOMB

- Requires external detonation device
- Uses rubber burst discs
- Uses FX Powder (Cool Smoke)
- Machined aluminum
- MIL spec anodized matte finish

QTY
2

RIGHT ANGLE HEAD PIPE BOMB

- Requires external detonation device
- Uses rubber burst discs
- Uses FX Powder (Cool Smoke)
- Machined aluminum
- MIL spec anodized matte finish

QTY
4

MAGNETIC SQUIB

- A small explosion device
- Requires an external detonation device (TCD, EFD, MFD)
- Uses CO2 and FX Powder (Cool Smoke)
- Magnetic bottom
- Uses rubber burst discs

QTY
2

TRIGGER CONTROL DEVICE

- Detonates any MIL-SIM-FX device
- Uses disposable 12 gram cartridge for initiation
- Command detonation
- Standard issue with suicide vest
- Cast and machined plastic

QTY
1

PRESSURE ACTIVATION DEVICE

- Uses disposable 12 gram cartridge for initiation
- Machined aluminum
- MIL spec anodized matte finish

1080 Kingsbury Avenue
Winnipeg, Manitoba, Canada R2P 1W5
Ph: (204) 336-0011 Fax: (204) 586-2049

QTY
1

PRESSURE RELEASE DEVICE

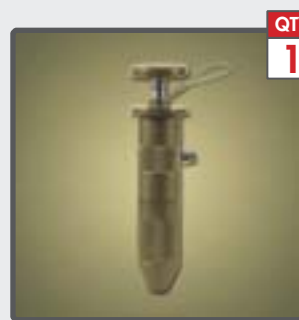

- Pressure Release Detonator
- Uses disposable 12 gram cartridge for initiation
- Machined aluminum
- MIL spec anodized matte finish

QTY
1

T HANDLE ALLEN KEY FOR CADDIE

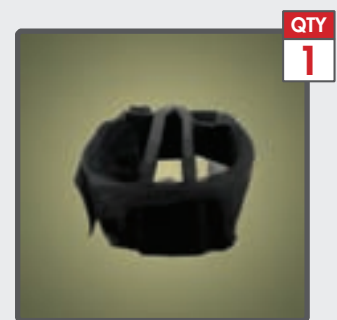

- Treated, forged steel alloy tool

QTY
1

MULTIFUNCTION DETONATOR

- Detonates any MIL-SIM-FX device
- Uses disposable 12 gram cartridge for initiation
- Tripwire, Command, Pressure Sensitive capabilities
- Machined aluminum
- MIL spec anodized matte finish

QTY
1

SUICIDE VEST

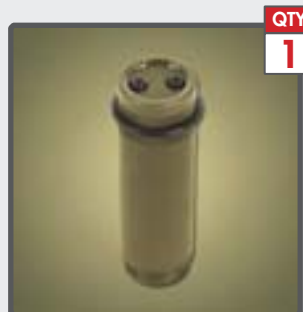

- Suicide vest fits comfortably across the shoulders and can be worn over or under loose clothing
- One size fits all with the adjustable Velcro tabs

QTY
1

RIGHT ANGLE HEAD

- For use with MILE3-PPBT or MIL-E3-BPH
- Uses rubber burst discs and FX Powder (Cool Smoke)
- Directs effect at a 90° angle

QTY
1

E3 BURIABLE POWER HOUSE

- Electronic initiation of the disposable 12 gram cartridge
- Uses E3 head attachments
- Designed for extreme conditions (wet, dusty or buried)
- When combined with E3 Detonator Cap and E3 433 Mhz Transmitter and Receiver can be used as a detonator for any MIL-SIM-FX device

QTY
1

E3 DET CAP

- Transfers initiating pressure to detonate any MIL-SIM-FX device
- Dust boot included
- Machined aluminum

QTY
1

E3 INLINE HEAD

- For use with PPBT Power Pack or E3 Buriable Power House
- Uses rubber burst discs and FX Powder (Cool Smoke)
- Directs effect straight out along a target line

ST-IED-PRO

SETCAN® PRO IED KIT ILLUSTRATED INVENTORY PAGE 3 OF 4

QTY
1

E3 RXPP REMOVABLE COVER W/ MAGNETS

- Removable magnetic belly plate for use with E3 433 Mhz Transmitter
- Easily installed/ removed
- Attaches E3 433 Mhz Transmitter to the 2 inch Cell Caddy carrying handle

QTY
1

PPBT POWER PACK

- Electronic, hair pin, or push initiation of the disposable 12 gram cartridge
- Uses E3 head attachments
- When combined with E3 Detonator Cap and E3 433 Mhz Transmitter and Receiver can be used as a detonator for any MIL-SIM-FX device

QTY
2

E3 CABLE

- Connects the E3 433 Mhz Transmitter to the E3 Buriable Power House to allow for remote initiation

QTY
1

E3 433 MHZ TRANSMITTER AND RECEIVER

- Radio controlled (433 Mhz) 2 channel, 500 ft (152 m) LOS power pack
- Includes additional normally open/ normally closed auxiliary input triggering
- Allows for two consecutive detonations
- Two channel transmitter included
- Optional magnetic belly plate attachment
- Can also be used in conjunction with compressed air chamber to initiate larger device detonations

QTY
1

POWER PACK (BATTERY)

- Power supply used to allow for improvised detonation control with the buriable E3 system (e.g. timer, crushwire, pressure plate and tilt switch)
- Designed for extreme conditions (wet, dusty or buried)

QTY
1

EXTERNAL TRIGGER (HACKSAW BLADE)

- Improvised trigger to use with the E3 433 Mhz Transmitter and Receiver and the Power Pack (Battery) to initiate the auxiliary input triggering features

QTY
1

EXTERNAL TRIGGER (PUSH BUTTON SWITCH)

- Handheld switch to use with the E3 433 Mhz Transmitter and Receiver and the Power Pack (Battery) to initiate the auxiliary input triggering features

BOTTLES
24

WHITE FX POWDER

- FX Powder (Cool Smoke) used to create the simulated explosion
- Ground Talc Powder
- 22 oz (625 g) bottles

ST-IED-PRO

SETCAN® PRO IED KIT ILLUSTRATED INVENTORY
PAGE 4 OF 4

GREEN AIRLINE

- Green airline used to connect detonator with device
- Parflex 1/8 O.D. x .031 wall nylon 500 WP line

GREEN BURST DISC

- Fragment free
- Considerably louder than the standard black Rubber Burst Disc

CO2 CARTRIDGE

- Formed plated steel cartridge
- Liquid CO2 filled

1080 Kingsbury Avenue
Winnipeg, Manitoba, Canada R2P 1W5
Ph: (204) 336-0011 Fax: (204) 586-2049
