SETCAN® URBAN TRAINING KIT ILLUSTRATED INVENTORY

PAGE 1 OF 4

QTY
1

PELICAN CASE 1620

- Medium storage case
- Durable latches and comfortable overmolded handle
- Dense ULB charcoal ester foam inserts

QTY
1

PIPE BOMB TRIP WIRE SET WITH CADDIE

- Tripwire initiated pipe bombs seated in a magnetic caddy
- Internal Detonation
- Uses rubber burst discs
- Uses FX Powder (Cool Smoke)
- Machined aluminum
- MIL spec anodized matte finish

QTY
4

RIGHT ANGLE HEAD PIPE BOMB

- Requires external detonation device
- Uses rubber burst discs
- Uses FX Powder (Cool Smoke)
- Machined aluminum
- MIL spec anodized matte finish

QTY
1

RIGHT ANGLE HEAD

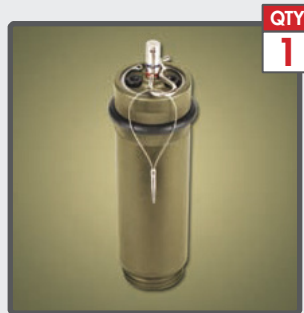

- For use with MIL-E3-PPBT or MIL-E3-BPH
- Uses rubber burst discs and FX Powder (Cool Smoke)
- Directs effect at a 90° angle

QTY
2

MAGNETIC SQUIB

- A small explosion device
- Requires an external detonation device (TCD, EFD, MFD)
- Uses CO2 and FX Powder (Cool Smoke)
- Magnetic bottom
- Uses rubber burst discs

QTY
1

PPBT POWER PACK

- Electronic, hair pin, or push initiation of the disposable 12 gram cartridge
- Uses E3 head attachments
- When combined with E3 Detonator Cap and E3 433 Mhz Transmitter and Receiver can be used as a detonator for any MIL-SIM-FX device

QTY
1

E3 DET CAP

- Transfers initiating pressure to detonate any MIL-SIM-FX device
- Dust boot included
- Machined aluminum

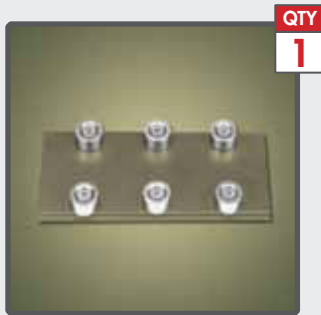

QTY
1

E3 INLINE HEAD

- For use with PPBT Power Pack or E3 Buriable Power House
- Uses rubber burst discs and FX Powder (Cool Smoke)
- Directs effect straight out along a target line

ST-IED-URB

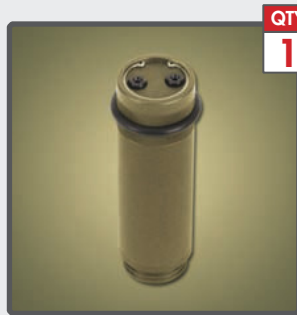

SETCAN® URBAN TRAINING KIT ILLUSTRATED INVENTORY PAGE 2 OF 4

QTY
1

E3 RXPP REMOVABLE COVER W/ MAGNETS

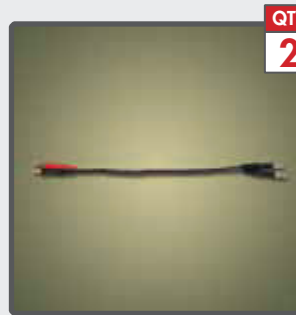

- Removable magnetic belly plate for use with E3 433 Mhz Transmitter
- Easily installed/ removed
- Attaches E3 433 Mhz Transmitter to the 2 inch Cell Caddy carrying handle

QTY
1

E3 BURIABLE POWER HOUSE

- Electronic initiation of the disposable 12 gram cartridge
- Uses E3 head attachments
- Designed for extreme conditions (wet, dusty or buried)
- When combined with E3 Detonator Cap and E3 433 Mhz Transmitter and Receiver can be used as a detonator for any MIL-SIM-FX device

QTY
2

E3 CABLE

- Connects the E3 433 Mhz Transmitter to the E3 Buriable Power House to allow for remote initiation

QTY
1

TWO CELL CADDY

- Steel powder coated caddy
- 12 Magnetic Feet

QTY
1

E3 433 MHZ TRANSMITTER AND RECEIVER

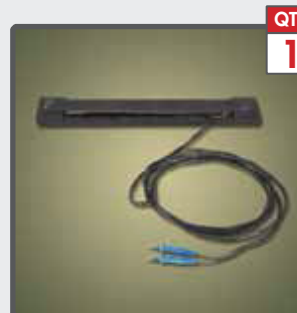

- Radio controlled (433 Mhz) 2 channel, 500 ft (152 m) LOS power pack
- Includes additional normally open/ normally closed auxillary input triggering
- Allows for two consecutive detonations
- Two channel transmitter included
- Optional magnetic belly plate attachment
- Can also be used in conjunction with compressed air chamber to initiate larger device detonations

QTY
1

POWER PACK (BATTERY)

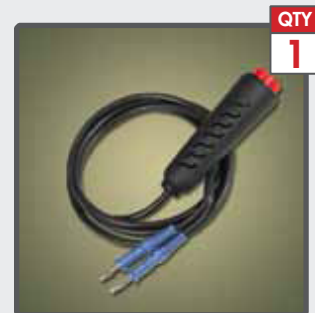

- Power supply used to allow for improvised detonation control with the buriable E3 system (e.g. timer, crushwire, pressure plate and tilt switch)
- Designed for extreme conditions (wet, dusty or buried)

QTY
1

EXTERNAL TRIGGER (HACKSAW BLADE)

- Improvised trigger to use with the E3 433 Mhz Transmitter and Receiver and the Power Pack (Battery) to initiate the auxillary input triggering features

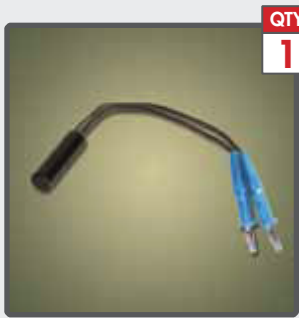

QTY
1

EXTERNAL TRIGGER (PUSH BUTTON SWITCH)

- Handheld switch to use with the E3 433 Mhz Transmitter and Receiver and the Power Pack (Battery) to initiate the auxillary input triggering features

ST-IED-URB

SETCAN® URBAN TRAINING KIT ILLUSTRATED INVENTORY PAGE 3 OF 4

QTY
1

EXTERNAL TRIGGER (TILT SWITCH)

- Works with any MIL-SIM-FX detonator with an External Trigger
- Ball bearing style
- Two Male Banana Plugs

QTY
1

EXTERNAL TRIGGER (ANTI-PERSONNEL PRESSURE MAT)

- Victim-activated external trigger
- Apply minimum 60 lbs of weight to activate
- 24" x 24" rubber mat with a 21" x 21" contact area
- Advanced technology allows mat to bend, not break, over uneven terrain
- Approximate 9 foot reach from detonator for concealment capabilities
- Buriable up to 4 inches under loose debris

QTY
2

TRIGGER CONTROL DEVICE

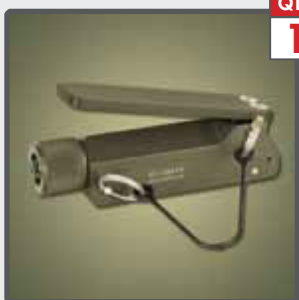

- Detonates any MIL-SIM-FX device
- Uses disposable 12 gram cartridge for initiation
- Command detonation
- Standard issue with suicide vest
- Cast and machined plastic

QTY
1

PRESSURE ACTIVATION DEVICE

- Uses disposable 12 gram cartridge for initiation
- Machined aluminum
- MIL spec anodized matte finish

QTY
1

PRESSURE RELEASE DEVICE

- Pressure Release Detonator
- Uses disposable 12 gram cartridge for initiation
- Machined aluminum
- MIL spec anodized matte finish

QTY
2

PRESSURE RELEASE IED

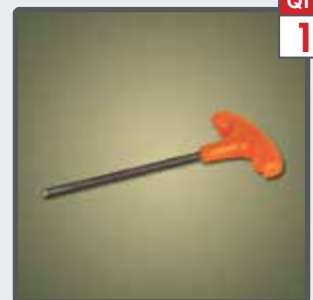

- Pressure release detonator with SQUIB
- Uses disposable 12 gram C02 cartridge
- Uses FX Powder (Cool Smoke)
- Machined aluminum

QTY
1

DISTRACTION DEVICE

- Distraction Device/Grenade Simulator
- Uses disposable 12 gram C02 cartridge
- Creates an audible report
- Used for dynamic entry training
- Aluminum body with MIL spec anodized matte finish

QTY
1

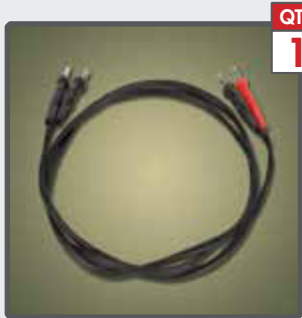

T HANDLE ALLEN KEY FOR CADDIE

- Treated, forged steel alloy tool

ST-IED-URB

SETCAN® URBAN TRAINING KIT ILLUSTRATED INVENTORY

QTY
1

SUICIDE VEST CABLE 38 INCH

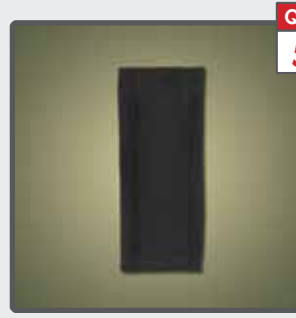

- Connects the E3 433 Mhz Transmitter and Receiver to the PPBT Power Pack to allow for remote initiation

QTY
1

SUICIDE VEST

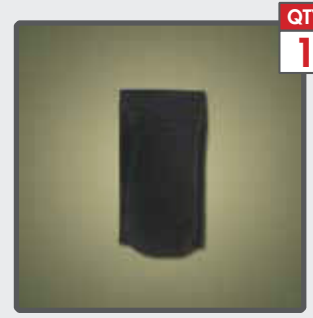

- Suicide vest fits comfortably across the shoulders and can be worn over or under loose clothing
- One size fits all with the adjustable Velcro tabs

QTY
5

SUICIDE VEST PIPE BOMB POUCHES

- Modular Velcro pouches distribute weight evenly and allow for a variety of configurations on both front and back of vest

QTY
1

REMOTE CONTROL POWERPACK POUCH

- Power pack velcro pouch for remote detonation
